OS MasterMap Topography Layer

OS MasterMap® Topography Layer is the most detailed complete and current view of Great Britain's landscape, allowing you to make location based decisions about your assets, risks and services.

Topography

OS Downloads API

Save valuable time by automating the discovery and download of detailed OS data.

Addressing & location

OS Maps API

Accurate, up-to-date maps that offer the most convenient way to add detailed OS data to your application.

Contextual or derived mapping

OS MasterMap Building Height Attribute

OS MasterMap Topography Layer – Building Height Attribute shows building height properties to help manage assets, plan works and visualise urban density.

Topography

OS Open Greenspace

Find the location of public parks, playing fields, sports facilities, play areas, allotments and more with OS Open Greenspace.

Topography

OS MasterMap Greenspace - Layer

OS MasterMap® Greenspace - Layer is Britain's most comprehensive greenspace dataset covering urban areas across England, Scotland and Wales.

Topography
